RINSE X

PREMIUM RINSE AID FOR COMMERCIAL DISHWASHERS

RINSE X is a high-quality low-foaming rinse additive formulated for use in high and low temperature automatic dishwashers.

DESCRIPTION: This is a rinse additive used in the rinse cycle, allowing quick drying of glasses, dishes and cutlery without spotting or streaking. It contains a special blend of non-foaming wetting and drying agents, along with a mild acid to ensure spotless dishes upon drying. It also helps to control mineral deposits left by hard water and food soils caused from rapid evaporation at high temperatures, minimizing the frequency of descaling washing equipment.

DIRECTIONS FOR USE: This product should be used with automatic dispensing equipment for proper proportioning.

PREVENTS SPOTTING AND FILMING
