Self-Cleaning Surfaces

**nanoSeptic®**

## Technology Over Toxins

The New Clean™ means continuously self-cleaning surfaces. It means safe, non-toxic materials. It means turning dirty, high traffic public touch-points into clean surfaces you can see.

The New Clean™ means less worry and a healthier environment at work, school, in healthcare and travel.

NanoSeptic Skins and Mats turn dirty high traffic, public touch-points into continuously self-cleaning surfaces. Powered by light, NanoSeptic surfaces utilize mineral nano-crystals which create an oxidation reaction stronger than bleach. Working 24/7, the surface continually oxidizes organic contaminants. Unlike traditional disinfectants and cleaners, the NanoSeptic surface uses no poisons, heavy metals or chemicals, and nothing is released from the surface since the nano-crystals are molecularly bonded to the material.

Find out what The New Clean™ can mean for your business. Contact us today to find out how NanoSeptic continuously self-cleaning mats and skins can be your first step toward creating a self-cleaning environment.

## Frequently Asked Questions (FAQ)

### How does the NanoSeptic Surface work?

One of the components of the surface is a mineral nano-crystal which acts as a catalyst, charged by visible light. These nano-crystals create a continuous oxidation reaction stronger than bleach. This oxidation reaction breaks down organic material into base components such as CO<sub>2</sub>. The surface also forms free radicals which act as an additional cleaning agent.

### What do you mean by "self-cleaning"?

The NanoSeptic surface continuously oxidizes organic contaminants at the microscopic level. Large scale contaminants must still be removed to allow the surface to do its job. This is similar to disinfectants, which require surfaces to be cleaned before the disinfectant can be effective.

### How do I know when to replace NanoSeptic surfaces?

The easiest rule to follow is to replace the skins quarterly and the other products annually. However, the print serves as a wear indicator, so if the text or graphics become worn or faded, it's time to replace. Also, if the skins start to peel off, we recommend a replacement to keep the touch point looking fresh.

**NanoSeptic meets the Health Canada standards as an efficient disinfectant for COVID-19.**

# Facility Touch Points

## Wide Door Push Bar, Square

Great for square push bars, self-locking doors or shopping cart handles.

Product #: PB02

Size: 4" x 18"

Available in two designs: Green Leaf or Brushed Metallic (Same price)

## Wide Door Push Bar, Tubular

Great for horizontal tubular push bars on self-locking doors.

Product #: PB05

Size: 3.6" x 12"

Available in two designs: Green Leaf or Brushed Metallic (Same price)

## Door Push/Pull Handle Wrap

This medium size skin can be used on lots of different touch points, but it's perfect for the square push plates and square pull handles on many glass doors.

Product #: PB06

Size: 4" x 9"

Available in two designs: Green Leaf or Brushed Metallic (Same price)

## Door Push Pad

Durable and easy to apply and replace, just peel and stick. Perfect for any push door used in bathrooms, locker rooms, cafeterias, or on other high traffic entry/exit doors.

Product #: PP01

Size: 6" x 9"

Available in two designs: Green Leaf or Brushed Metallic (Same price)

### Door Handle Wrap

Super pliable to wrap around tubular door pull handles. These wraps come in two sizes to fit most uniform door handles. Can also be easily trimmed to fit smaller handles.

Product #: HW01  
 Fits 1" to 1.25" diameter handles  
 Available in two designs: Green Leaf or Brushed Metallic (Same price)

Product #: HW02  
 Size: 3" x 4"  
 Fits less than 1" diameter handles  
 Available in two designs: Green Leaf or Brushed Metallic (Same price)

### Elevator Button Covers

These clear plastic button covers turn high-traffic public elevator buttons into continuously self-cleaning surfaces. Just peel and stick. Sold in package of 25 buttons. Includes two NanoSeptic label to inform people that the buttons are self-cleaning. Covers are also available in 1.0625" square size.

Product #: ELEV01  
 Size: 0.9" dia.

### Elevator Button Labels

Product #: LAB01

### Bathroom Stall Door Handle Sleeves / 20 Pack

These silicone sleeves turn standard bathroom stall door handle knobs into continuously self-cleaning touch points. Installation is simple... just spray the knob with liquid glass cleaner and the sleeves slide right on. Like our other touch points, these sleeves are durable, lasting 3 months. Sleeves are 3/4" long and fit most common stall door handle knobs.

Product #: FHS01  
 Size: 3" length

### Urinal Flush Handle Sleeves

These silicone sleeves turn standard bathroom flush handles into continuously self-cleaning touch-points. Installation is simple... just spray the handle with Windex and the sleeves will slide right on. Like our other touch-points, these sleeves are durable, lasting 3 months. Sleeves are 3" long and fit most common flush handles. The surface should be replaced every 90 days, sometimes sooner if very high traffic.

### Clear Film for Touchscreens

From restaurant checkout to hospital and airline kiosks, this NanoSeptic film turns any touchscreen into a continuously self-cleaning surface. Low tack adhesive provides a more secure installation than traditional static cling. Can be cut to fit any size screen. The touchscreen shown has a label identifying the screen as a NanoSeptic surface. This label is included in all clear film orders.

Product #: FILM01  
Size: 12" x 18"

Product #: FILM02  
Size: 9" x 12"

### Touchscreen Labels

Product #: LAB02

### Light Switch Covers

Self-cleaning silicone light switch covers fit 1/4" traditional light switches. They last 90 days and are easy to install and remove – just pop on and pop off.

Product #: LS01

### Slip-On Door Handle Sleeves/ 20 Pack

These silicone sleeves turn high traffic door handles into continuously self-cleaning touch points. Perfect for ADA door handles, they are durable and last 90 days. Installation is simple... just spray the handle with liquid glass cleaner and the sleeve slides right on.

Product #: SL01  
Size: 4" length  
Custom sizes available.

### Door Handle Sleeves for Round Door Knobs

Silicone slip-on sleeves are currently in the prototype stage and will be available for purchase soon!

### ADA Auto Door Push Button Skin

Same peel-and-stick material as our door handle skins. Fits standard square and circular ADA door push buttons.

Product #: PP02  
Size: 3.375" x 3.375"  
Available in two designs: Green Leaf or Brushed Metallic (Same price)

# Surfaces and Placemats

## TV Channel Guide

Talk about a surface that's touched by most guests and is never cleaned. The NanoSeptic channel guide has room for more than 100 channels and is printed on both sides.

Product #: CG01  
Size: 4" x 9"

## Small Travel Kit

Small travel mat comes in a tamper-evident, reusable envelope. Great for use on hotel vanity, airplane tray table, or anywhere you want a cleaner place to rest personal items like a toothbrush, medications, jewelry or even snacks while traveling. Mat can be imprinted with your logo.

Product #: TK03  
Size: 6" x 9"

## Large Travel Kit

Large travel mat comes in a tamper-evident, reusable envelope. Great for use on hotel vanity, airplane tray table, or anywhere you want a cleaner place to rest personal items like a toothbrush, medications, jewelry or even snacks while traveling. Mat can be imprinted with your logo.

Product #: TK05  
Size: 9" x 12"

## Desk Mat / Placemat

This mat is perfect for education or daycare settings. No more using laminated sheets to rest snacks or supplies on. This self-cleaning mat is durable and should last an entire school year.

Mat can be imprinted with your logo.

Product #: SM01  
Size: 9" x 12"

### Also available:

#### Mat in a tamper-evident reusable pouch

Product #: SK01  
Size: 9" x 12"

## Large Desk Mat / Placemat

This mat is perfect for education or daycare settings. No more using laminated sheets to rest snacks or supplies on. This self-cleaning mat is durable and should last an entire school year.

Mat can be imprinted with your logo.

Product #: DM01  
Size: 12" x 18"  
\*Lasts one year

## Counter Mats

New and Improved! Standard and Narrow Counter Mats with Window Pocket  
This ultra durable mat is perfect for counters, desks, reception areas and even physician exam rooms. The built-in magnetic pocket allows you the flexibility to customize content by changing out inserts tailored to fit your specific need. Insert a calendar, educational material, or a timely promotion. Features a clear frost front with rubber back.

Product #: CM03  
Size: 11" x 17"

Product #: CM04  
Size: 7" x 17"

### Cellf Defense®

Great for any mobile phone, tablet or electronic device, these NanoSeptic self-cleaning feet stay clean and keep devices off of dirty surfaces. They are easy to apply – simply peel and stick to the four corners of your device.

Product #: CD01

### Security Bin Mat

Going through security checkpoints means putting shoes and other dirty items in the same bin with things like phones, eye glasses and keys. Now those bins can be significantly cleaner. Mats can be branded and made in custom sizes. Perfect for airports, nuclear facilities, government buildings and other secure facilities.

Product #: SBM01

Size: 12 1/8" x 16 7/8"

MSRP: Quote to order

Product #: SBW01

Size: 4" x 3 5/8"

MSRP: Quote to order

### Add a Custom Logo Imprint

For information on minimum order requirements and pricing for adding a custom logo, please contact us.

### Mouse Pad

This mouse pad is printed on a rigid, super durable NanoSeptic surface with non-slip rubber backing. A perfect mouse pad for home, office or school settings.

Product #: MP01

Size: 7" x 10"

### NanoSeptic Tissue Box Cover

This continuously self-cleaning NanoSeptic cover protects your tissue box. Features a water-resistant surface that can be wiped down. Ships flat, assembles with simple tab locks. Does not include tissue box or tissues.

Product #: TBC02

Size: 9 1/8" x 2 3/16" x 4 7/8"

(Fits standard rectangular 100 sheet tissue boxes)

### Jumbo Sheet

This jumbo sheet is perfect for custom applications where you want to cut your own size peel-and-stick touch points. Grid lines at 1/2" and 1" make measuring and cutting custom size skins easy. And "NanoSeptic Self-Cleaning Surface" is repeated over the entire surface, so no matter how you cut it, the surface will always communicate its value.

Product #: SH01

Size: 12" x 18"

# Starter Kits and Sample Kits

## Full Sample Kit

Want to have samples of our products all in one convenient package? Our full sample kit is perfect.

Product #: SAMPLE01

## Facility Touch Point Sample Kit

This kit has samples of 3 different sizes of self-cleaning touch point skins for facilities.

Kit includes:

- (1) 4" x 6" Handle Wrap
